Ops Cell

Agentic Business Process Management

di-factory | Data Intelligence Factory

Your transactions processed. Your team freed up. Human judgment. Agent execution.

The Problem

PAIN POINT	IMPACT
Manual data entry	Errors, delays, frustrated staff
Document processing backlogs	Customers waiting, SLAs at risk
Repetitive routing decisions	Skilled staff doing routine work
Month-end chaos	Finance team working weekends
Compliance burden	Manual tracking, audit anxiety

Your operations team is capable. They shouldn't spend 60% of time on admin.

The Solution — Ops Cell

What you buy: An agentic cell that handles your transactions

ELEMENT	DESCRIPTION
The Cell	AI agents + human oversight
Pricing	Flat $8K/sprint — NOT per-transaction
How it works	Agents execute, humans approve exceptions
Continuous improvement	Quarterly enhancement analysis

Process 100 or 10,000 transactions. Same price.

Use Cases

USE CASE	BEFORE	AFTER
Invoice Processing	5 days	Same day
Employee Onboarding	5 days, 15 steps	1 day, mostly automated
Expense Reports	2 weeks	3 days
Document Extraction	Manual, error-prone	80%+ auto-extracted
Status Notifications	Forgotten	Automatic, proactive
Compliance Reporting	Manual, stressful	Auto-generated

Agent Roles

AGENT	WHAT IT DOES
Document Processing Agent	Extracts data from any document format
Routing Agent	Routes requests to right team/person
Data Entry Agent	Populates systems from extracted data
Notification Agent	Sends status updates, reminders
Reporting Agent	Generates dashboards, compliance reports

Your ops team focuses on exceptions, judgment calls, and improvements.

Sprint 0 — Discovery & First Agent

4 weeks | $2K or FREE with 6-month contract

WEEK	FOCUS
Week 1-2	Map your processes, identify bottlenecks, score automation candidates
Week 3	Build highest-ROI agent
