Your Partner to Maximize Digital Venture Capitalization

di-factory | Data Intelligence Factory

"We don't just build the product — we build the company around it."

The Problem

- **Tech P&E is the #1 risk factor** for digital startups
- Unrealistic timelines & budget overruns
- Technical debt from day one
- AI promises that never materialize
- Expensive headcount scaling that burns runway

The Hidden Cost

- **Failed investments** — capital lost on unvalidated ideas
- **Reduced returns** — delayed launches miss market windows
- **Missed opportunities** — resources tied up in failing projects
- Portfolio companies stuck in **"almost ready" hell**
- Each failure compounds across the portfolio

Our Solution

- **Technical risk mitigation** for your portfolio
- Fixed time. Fixed budget. **AI-powered delivery.**
- From idea to AI-native company in **12 weeks**
- Dramatically lower capital requirements per venture
- Repeatable process across your entire portfolio

Three Partnership Levels

LEVEL	SERVICE	DURATION	FOCUS
1	Business Consulting	4 weeks	Validate
2	MVP Development	4 weeks	Build
3	Agentic Organization	4 weeks	Scale

Each level stands alone. Combine for maximum impact.

Level 1: Business Consulting

Validate before you invest.

- Technical feasibility assessment
- Business model validation (10-phase methodology)
- Market sizing (TAM-SAM-SOM)
- Competitive analysis & moats
- **Investment recommendation: GO / NO-GO**
- 4 weeks | Investor-ready business plan

Level 2: MVP Development

From idea to working product.

- Fixed 4-week sprint
- Cloud-native architecture
- Production-ready for market testing
- Full documentation & IP transfer
- **Real product, not a prototype**
- Ready for user acquisition & revenue

Level 3: Agentic Organization

Build the AI-native company.

- AI C-suite: CTO, CGO, COO, CFO agents
- **24/7 operations** from day one
- Scale without scaling payroll
- Dramatically lower burn rate
- 4 weeks to operational AI-native org
- Premium valuation positioning

Risk Mitigation

- **Fixed-time delivery** — no endless development cycles
- **Fixed-budget guarantee** — capital exposure known upfront
- **Technical due diligence** — evidence-based GO/NO-GO
- **Scalable foundations** — built for growth, not throwaway
- **Transparent process** — weekly demos, daily updates

Capital Efficiency

- **Lower capital requirements** per venture
- **Faster time-to-revenue** — weeks, not months
- **Multiple iterations possible** within traditional budgets
- **Higher runway efficiency** — do more with less
- Better portfolio diversification at same capital
